† Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit www.energystar.gov.

♦ For information regarding furnace or fan coil options that can increase the energy efficiency of selected 13 and 14 SEER Comfortmaker air conditioners (SEER) and heat pumps (SEER and HSPF), go to Comfortmaker.com and look for "Energy Savings" on the menu.
